

File and Removable Media Protection – SaaS Essentials: Configuration

Self-Paced Online Training

Highlights

Duration

1 hour

Prerequisites

Students taking this course should have a working knowledge of Windows and macOS, along with familiarity with system administration and network technologies.

Recommended prerequisites include a basic understanding of computer security, data encryption principles, and command line syntax, as well as knowledge of malware, antimalware, viruses, antivirus, and web technologies. Additionally, prior experience or working knowledge of Trellix[®] ePolicy Orchestrator (ePO) and Trellix Agent is also required.

How to Register

This course is available for purchase at <u>https://trellix-training.netexam.</u> <u>com</u>.

Introduction

The File and Removable Media Protection - SaaS Essentials: Configuration course provides a comprehensive overview of configuring File and Removable Media Protection - SaaS (FRP - SaaS) in your environment, including policies, user accounts, and roles.

FRP - SaaS delivers policy-enforced, automatic, and transparent encryption of removable media such as USB drives.

This course is designed as a practical starting point for someone who is new to configuring FRP - SaaS.

Learning Objectives

After completing this course, learners should be able to:

- Describe policies
- Identify FRP SaaS policies
- Create and edit FRP SaaS policies
- Assign and enforce FRP -SaaS policies
- Identify User Accounts and Roles
- Add User Accounts and Roles

Who Should Attend

The course is designed for system and network administrators, security personnel, auditors, and consultants who are concerned with data encryption on endpoints.

Enhance your expertise by exploring the fundamentals aspects of FRP -SaaS configuration, especially if you are new to working with or supporting this solution.

Course Outline

- 1. Introduction
- 2. Policies

- 3. User Accounts and Roles
- 4. Conclusion
