

Management of Native Encryption - SaaS Essentials: Deployment

Self-Paced Online Training

Highlights

Duration

4 hours

Prerequisites

Students taking this course should have a working knowledge of Microsoft Windows administration, system administration concepts, and a basic understanding of computer security and internet services. It is also necessary to have prior experience using Windows CLI commands and ePolicy Orchestrator.

How to Register

This course is available for purchase at <https://trellix-training.netexam.com>.

Introduction

This course comprehensively explores the MNE - SaaS Product, covering various aspects such as MNE - SaaS requirements, accessing and installing MNE - SaaS on the client system, deploying MNE Client, verifying installation, and associated benefits. Additionally, it presents a high-level overview of migrating MNE from ePO On-prem to ePO - SaaS.

Learning Objectives

After completing this course, learners should be able to:

- Identify the requirements for deploying agent and MNE - SaaS on designated endpoints.
- Access and install MNE from ePO - SaaS XConsole effectively.
- Deploy MNE client on designated endpoints using efficient techniques.
- Verify the successful installation of MNE directly from ePO-SaaS XConsole on its corresponding client system.
- Understand the migration process from on-premises ePO to ePO - SaaS.
- Evaluate the effectiveness of the migration process in ensuring continuity and security.

Who Should Attend

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with network and system security.

Course Outline

1. Introduction
2. Accessing and Installing MNE - SaaS on ePO - SaaS
3. MNE on ePO - SaaS Requirements
4. MNE Client Deployment
5. Verify Installation
6. Migration from On-Premises ePO to ePO - SaaS
7. Summary
