Who is Trellix?

Two global trusted leaders in cybersecurity have merged to form Trellix. A fresh cyber security firm determined to redefine the future of cybersecurity with a mature XDR platform.

Why Trellix?

We knew security could be different. Fast enough to keep up with dynamic threats. Intelligent enough to learn from them. Constantly evolving to keep the upper hand.

Trellix offers our customers a living security solution where we are always learning & adapting, native & open, and expert & embedded.

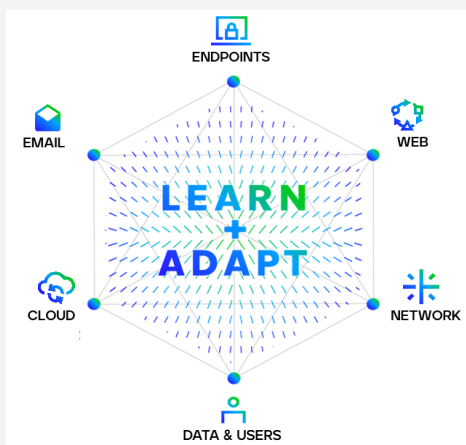

What that means is we provide a complete security solution with our core engines for Endpoint Security, Network Security, Email Security, Cloud Security, and Data Security which integrate with our SOAR Helix for single interface for security operations teams, which we call XConsole.it can do, giving everyone in your organization

We're changing what security means and what it can do, giving everyone in your organization the confidence that comes with being more secure, every day

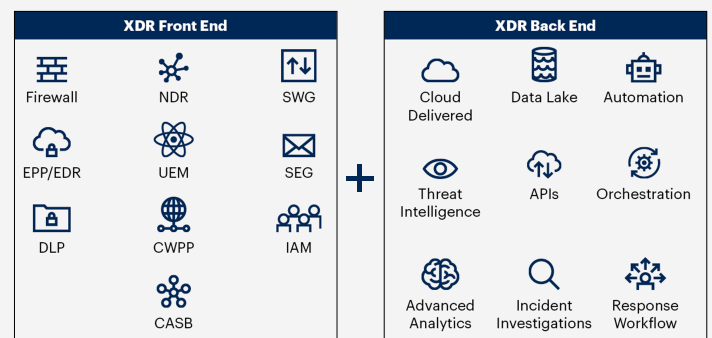

Trellix XDR Platform

Delivering Comprehensive XDR for Better Outcomes with Unified Security

Gartner® Report: Market Guide for XDR

As per Gartner, "XDR is an emerging technology that can offer improved threat prevention, detection and response."

Trellix Integrated Endpoint Security Platform

Future-proof your defenses and build resilience with end-to-end integrated security for every endpoint

- ✓ Trellix Endpoint Security (ENS)
- ✓ Trellix Endpoint Detection and Response (EDR)
- ✓ Trellix Application Control
- ✓ Trellix Mobile Security

Data Security

Keep your information safe with a single integrated suite

- ✓ Trellix Complete Data Protection Platform
- ✓ Trellix Data Loss Prevention - Endpoint
- ✓ Trellix Data Loss Prevention - Monitor
- ✓ Trellix Data Loss Prevention - Prevent
- ✓ Trellix Data Loss Prevention - Discover
- ✓ Trellix Data Encryption

Network Detection and Response

XDR without NDR is just EDR.

- ✓ Trellix Network Security
- ✓ Trellix Network Forensics
- ✓ Trellix Intrusion Prevention System
