Trellix

24-26 OCTOBER 2023

EMEA Security Summit

Rome, Italy

TIME	TOPICS

Tuesday, 24th October 2023

Registration & Welcome Reception

05:00 PM	to	08:30 PM	Registration opens
07:30 PM	to	10:00 PM	Welcome Reception & Barbecue

Wednesday, 25th October 2023

Registration

08:00 AM	to	09:00 AM	Registration open

Keynote Session [1]

09:30 AM	to	09:40 AM	**Welcome & Introduction** Fabien Rech, Senior Vice President EMEA
09:40 AM	to	10:10 AM	**Trellix CEO Keynote** Bryan Palma, Chief Executive Officer
10:10 AM	to	10:40 AM	**Mind of a Trellix CISO** Harold Rivas, Chief Information Security Officer
10:40 AM	to	11:10 AM	**Unveiling the Shadows** John Fokker, Head of Threat Intelligence, Trellix Advanced Research Center & Mo Cashman, Field CTO EMEA
11:10 AM	to	11:25 AM	**Perspectives from a Trellix Security Alliance Partner** TBA
11:25 AM	to	11:50 AM	**Panel Discussion, moderated by Vibin Shaju** Bryan Palma, Harold Rivas, Fabien Rech, John Fokker
11:50 AM	to	12:00 PM	**Closing** Fabien Rech, Senior Vice President EMEA

Networking Lunch

12:00 PM	to	01:30 PM	Networking Lunch

Technical Breakouts & Roundtables [1]

01:30 PM	to	03:30 PM	Technical Breakouts & Roundtables [2]
03:30 PM	to	04:10 PM	Coffee Break
04:15 PM	to	05:15 PM	Technical Breakouts & Roundtables [2]

Thursday, 26th October 2023

Technical Breakouts & Roundtables [1]

09:00 AM	to	11:00 AM	Technical Breakouts & Roundtables [2]
11:00 AM	to	11:40 AM	Coffee Break
11:45 AM	to	01:45 PM	Technical Breakouts & Roundtables [2]

Networking Lunch

01:45 PM	to	03:00 PM	Networking Lunch & End of Security Summit

Trellix

/ 24–26 OCTOBER 2023

EMEA Security Summit

Rome, Italy

Technical Breakouts [1]

WEDNESDAY	THURSDAY	TOPICS
01:30 PM – 02:25 PM 04:15 PM – 05:15 PM	11:45 AM – 12:40 PM	**Breakout 1:** **There is No Such Thing as a Safe Email and Collaboration** Over 90 % of cyberattacks begin with phishing and it only takes one click for an organizational level breach. Email and collaboration platforms have become increasingly an area of concern for cybersecurity professionals. We are seeing current email security solutions are not able to handle advance phishing techniques and collaboration platforms usage are increasing with digitization moving in a fast phase. In this session you will learn and watch how Trellix Collaboration Platform Security provides advanced detections for content shared via collaboration platforms and emails before they enter your environment.
01:30 PM – 02:25 PM	09:00 AM – 09:55 AM 11:45 AM – 12:40 PM	**Breakout 2:** **Elevating Network Security with NDR** It's time to take the investment we have made in the space of IPS/IDS, Network Monitoring/Packet Capture to the next level. In this session you will learn and watch how your current network security investment can be elevated by Trellix NDR. See how you can harness the data available on your network traffic through advanced behavioral techniques like machine learning and advanced analytics while taking advantage of the response capabilities to remediate the threat of suspicious network traffic.
01:30 PM – 02:25 PM 04:15 PM – 05:15 PM	10:05 AM – 11:00 AM	**Breakout 3:** **Before, During and After Ransomware** Despite continuous improvements in advanced prevention and EDR technologies, security teams still struggle with managing the complexity of their attack surface, dealing with inefficient protection, alert triage, and perhaps most troubling, reoccurring ransomware incidents. What does it mean to have security capabilities before, during, and after attacks and how does it feed into a lifecycle? Recognizing the importance of each phase can help security teams identify where they may have gaps in their security strategy and where they should focus additional counter measures to reduce risk and cost posed by attacks on endpoints is key. In this session we will go through these multiple phases and look at the key capabilities needed in your defenses to improve security posture and prevent ransomware incidents from reoccurring.
02:35 PM – 03:30 PM	09:00 AM – 09:55 AM 12:50 PM – 13:45 PM	**Breakout 4:** **Elevating the SOC Analyst Experience With XDR** XDR is a top buzzword in the security industry. As per the Gartner estimation, by year-end 2028, XDR will be used by up to 30% of end-user organizations to reduce the number of security vendors they have in place, up from less than 5% today. Unlike SIEM products, XDR strives to satisfy only the incident response use case across the security infrastructure. In this session you will learn about the four must have controls for XDR and what should be your organizational ideal journey towards an XDR maturity. Learn and see how Trellix Open XDR works in detecting, responding and remediating threats with confidence.
02:35 PM – 03:30 PM	10:05 AM – 11:00 AM 12:50 PM – 13:45 PM	**Breakout 5:** **Trellix Threat Intelligence as a Service for Your Enterprise** Threat intelligence plays a crucial role in modern cybersecurity and risk management. In a constantly evolving threat landscape, staying ahead of potential adversaries is paramount, and threat intelligence is a key tool in achieving that goal. In this session you will learn about on-demand, prioritized threat intelligence from Trellix. We will dig deeper into the key elements of this tailor-made threat campaign intelligence. This session also provides a detail on how we track threat actors as well as campaigns, techniques, and tools the attackers use and how this information can be leveraged by your organization.
02:35 PM – 03:30 PM	09:00 AM – 09:55 AM 12:50 PM – 13:45 PM	**Breakout 6:** **Protecting Your Crown Jewels** In today's data-driven landscape, safeguarding sensitive information is paramount. Join us as we explore EMEA's latest data breach trends, their exorbitant costs, and the evolving threat vectors, from ransomware to insider risks. With Artificial Intelligence (AI) adoption on the rise, organizations must prioritize data privacy, adhere to regulations, and implement technical and organizational measures to safeguard data throughout its lifecycle while harnessing the power of AI for various applications. In this session you will learn more on the complete Data Protection platform from Trellix and why it is more important than ever. See the evolution in tackling the data protection use cases in the age of AI while leveraging its power.
04:15 PM – 05:15 PM	10:05 AM – 11:00 AM	**Breakout 7:** **Why MFA on a Mobile Device … is NOT the Silver Bullet in a Zero Trust architecture … without VISIBILITY!** Join Zimperium and Trellix for a hacking demo and discussion filled with use cases and examples, as to how and why you need visibility on your mobile device to: - safeguard your users from giving up their credentials (including MFA) - examine the mobile device posture before allowing access - vet your own- and third-party mobile apps before releasing them.
– – –	11:45 AM – 12:40 PM	**Breakout 8:** **Centralize Your Security Data with Amazon Security Lake** In this breakout you will learn how AWS Security Lake automatically centralizes security data from AWS environments, SaaS providers, on premises, cloud sources, and third-party sources into a purpose-built data lake that's stored in your AWS account. You will also see how Trellix and Amazon Web Services (AWS) have come together to expand security capabilities on the cloud and uncover cloud-specific threats.

Roundtables [1]

WEDNESDAY	THURSDAY	TOPICS
01:30 PM – 02:25 PM	– – –	**Roundtable 1:** **Compliance & Cybersecurity Regulations** One of the top topics in EMEA and key for organizations is to protect privacy, sensitive data and maintain customer trust. Listen to Trellix compliance experts and share your thoughts in this roundtable to review and discuss the top regulations and its impacts on the business.
02:35 PM – 03:30 PM	12:50 PM – 01:45 PM	**Roundtable 2:** **Ransomware Tabletop** A discussion-based exercise where personnel with roles and responsibilities in a particular IT plan meet in a classroom setting or in breakout groups to validate the content of the plan by discussing their roles during an emergency and their responses to a ransomware situation. A facilitator initiates the discussion by presenting a scenario and asking questions based on the scenario.
04:15 PM – 05:15 PM	10:05 AM – 11:00 AM	**Roundtable 3:** **Cybersecurity in the Age of AI** AI is an all-time hype, and it brings lot of opportunities and challenges to Cybersecurity. This roundtable provides a platform for experts on this topic to share their experiences and insights. You will also learn how Trellix leverages AI and ML to its engineering process.
– – –	09:00 AM – 09:55 AM	**Roundtable 4:** **Trellix & AWS: Security and Visibility in Public Cloud** Roundtable to discuss the challenges and opportunities public cloud brings in providing superior security and visibility.
– – –	11:45 AM – 12:40 AM	**Roundtable 5:** **Pillars & Goals of Zero Trust** Zero Trust is becoming more and more prevalent to tackle today's cyberthreat landscape. This breakout reviews the pillars and goals of ZT adoption and looks into why ZT should be customized to every organizational need for its successful implementation.

[1] Subject to changes within the agenda.

[2] Most of our technical breakouts will be repeated up to 3 times and our Roundtables up to 2 times to give you the opportunity to cover as many topics as possible during your attendance.

After confirmed registration, you will receive a separate email containing a form for compiling your personal agenda. Please make sure that you complete this by no later than 18th August 2023.

Every session is limited to 30 seats for each timeslot. Seats per session will be allocated on a first come, first served basis. If a session is already fully booked, we will inform you accordingly so that you can make adjustments to your personal agenda.
